Hospital Financial Corporation
ATTN: Mr. William Lepeska
President
1529 Lake Shore Drive
Twin Lakes, WI 53181

License No. 24-09624-03
License No. 24-09624-04

Dear Mr. Lepeska:

This refers to your letter received by the NRC Region III office on November 1, 1990, with attached NRC Forms 314 and close out surveys, indicating disposition of radioactive materials possessed under NRC Licenses No. 24-09624-03 and 24-09624-04. These licenses were initially issued to Poplar Bluff Hospital and were subsequently transferred to your control in 1989. This information was submitted to us in response to a Confirmatory Action Letter issued to you on January 24, 1990, and as required by 10 CFR Part 30.36.

We have reviewed your submitted documents and have determined that the radioactive materials in your possession have been properly transferred with no evidence of residual radioactive contamination remaining at Poplar Bluff Hospital. Therefore, Poplar Bluff Hospital may be released for unrestricted use.

Since all other conditions of the January 24, 1990, Confirmatory Action Letter have been satisfied and both NRC licenses have expired we have no further questions regarding this matter and no further action on your part is necessary.

We sincerely appreciate your cooperation with us in this matter.

Sincerely,

Original signed by
A. Bert Davis

A. Bert Davis
