Dear Mr. Hunger:

SUBJECT: UNIMPLEMENTED GENERIC SAFETY ISSUES AT LIMERICK GENERATING STATION,
UNITS 1 AND 2

On April 25, 1990 the staff issued Generic Letter 90-04 which requested information concerning the implementation status of certain generic safety issues (GSIs) at your facility. Based on your response to this Generic Letter, dated June 29, 1990, our own records and discussions with your staff, we have updated our database on GSI implementation status. The results of this effort were presented to the Commission at a meeting on October 25, 1990.

The enclosure to this letter summarizes the staff's understanding of the current status of the one GSI which remains unimplemented at the Limerick Generating Station, Units 1 and 2. We appreciate the assistance you provided in responding to Generic Letter 90-04 and we encourage your timely completion of the GSI listed in the enclosure.

Please contact me if you have any questions or comments about the enclosed information.

Sincerely,

Original signed by
