Docket No. 50-220

Mr. B. Ralph Sylvia
Executive Vice President - Nuclear
Niagara Mohawk Power Corporation
301 Plainfield Road
Syracuse, New York 13212

Dear Mr. Sylvia:

SUBJECT: REQUALIFICATION PROGRAM INSPECTION - NINE MILE
POINT STATION, UNIT 1

In a telephone conversation on April 5, 1994, Mr. J. Williams and Mr. G. Hartranft made arrangements for the NRC to inspect the licensed operator requalification program at the Nine Mile Point Station, Unit 1. The inspection is planned for the week of June 6, 1994, which coincides with your regularly-scheduled requalification examination cycle. The staff at your facility should prepare and conduct the requalification examinations in accordance with your NRC-approved requalification program.

In order for the NRC to adequately prepare for this inspection, please furnish the following materials by May 6, 1994.

- The annual operating tests for the week of June 6 and the previous two weeks (May 23 and 30).
- Sample Plan for the five-week exam period.
- Training Department procedures for: examination preparation and administration; student feedback system; remedial training program; simulator training; and JPM training.

Mr. Hartranft has been advised of this request.

The request for requalification examination material is covered by the Office of Management and Budget (OMB) Clearance Number 3150-0101, which expires on October 31, 1995. The estimated average burden is 4.0 hours per response, including gathering, copying, and mailing the required material. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Information and Records Management Branch, MNBB-7714, Division of Information Support
