Subject: Virgil C. Summer Nuclear Station
Docket No. 50/395
Operating License No. NPF-12
Emergency Exercise Drill Requirements

Dear Mr. Denton:

In a letter dated September 23, 1982, South Carolina Electric and Gas Company (SCE&G) acting for itself and as agent for its Co-Licensee, South Carolina Public Service Authority, requested an exemption (if required) from the requirement in 10CFR.50.47 concerning conducting a full scale emergency drill within one year of receipt of a full power (>5%) license. In this letter SCE&G stated that we were prepared to conduct a partial emergency drill (SCE&G and county participation) as early as February, 1983. Since that time we have been informed that the Federal Emergency Management Agency (FEMA) cannot participate in a drill with us until the second week in March, 1983. Based on the unavailability of FEMA in February, 1983, SCE&G will conduct a limited emergency drill in March, 1983.

Very truly yours,

O. W. Dixon, Jr.
