SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)
 DOCKET NOS. 50-445 AND 50-446
 TRANSMITTAL OF TECHNICAL REQUIREMENTS MANUAL (TRM)
 REVISION 15

Gentlemen:

TU Electric herewith submits Revision 15 (enclosed) of the CPSES Technical Requirements Manual (TRM). Enclosed are the following documents:

Technical Requirements Manual	1 signed original
Revision 15	and 10 copies

The attachment contains a page-by-page description of the changes. As has been the TU Electric practice in the past several TRM revisions, all changes described in the attachment have been evaluated for relative significance (i.e., the group number 1, 2, 3, or 4 corresponds to each change justification as discussed in TU Electric letter TXX-88467 dated June 1, 1988). In addition, all changes applicable to CPSES Units 1 and 2 have been reviewed under the TU Electric 10CFR50.59 process and found not to include any "unreviewed safety questions".

TRM Revision 15 was issued on April 15, 1994, and will become effective at 0001 a.m. on April 29, 1994.
