OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

In the Matter of
UNIVERSITY OF MISSOURI
Materials License Nos. 24-00513-32 and SNM-247
Docket Nos. 70-270/030-02278-MLA

Dear Judge Bloch:

In the temporary stay Order you issued on October 20, 1990, you noted an inaccuracy regarding 10 C.F.R. § 30.32(i) in the affidavit submitted by the Staff on July 27, 1990 in response to your June 27 and 29, 1990 Memoranda and Orders concerning the hearing file. Although this matter was addressed by the "Licensee's Submittal in Accordance with Memorandum of Conference Call of October 19, 1990" dated October 30, 1990 as well as by your Memorandum and Order dated November 1, 1990 (LBP-90-38), the Staff believes that it should correct the error. For this purpose, I am forwarding the Affidavit of William J. Adam which corrects his earlier Affidavit in regard to 10 C.F.R. § 30.32(i).

Also for your information, I am forwarding to you a copy of the Federal Register Notice of the issuance of 10 C.F.R. § 30.32(i) *inter alia*. (54 Fed. Reg. 14051 et seq., April 7, 1989). As indicated therein, the rule did not become effective until April 7, 1990. The University of Missouri applied for the two materials license amendments on February 21 and March 12, 1990 and the amendments were issued on March 19 and April 5, 1990.

Sincerely,

Colleen P. Woodhead
Counsel for NRC Staff
