Gentlemen:

This letter constitutes an interim report concerning the subject condition initially reported to the Commission under the requirements of 10CFR50.55(e).

CG&E's previous report, QA-1847, dated July 2, 1982, committed to provide a follow-up report by September 30, 1982, however, due to further analysis required by new information, two additional weeks is requested to complete the scheduled interim report. This was discussed with Mr. D. R. Hunter of the NRC in his September 30, 1982 telephone conversation with Messrs. H. R. Sager and H. C. Brinkmann of CG&E. A report, therefore, will be submitted by October 14, 1982.

Very truly yours,
