Date: October 1, 1982

PRELIMINARY NOTIFICATION OF EVENT OR UNUSUAL OCCURRENCE--PNO-I-82-63

This preliminary notification constitutes EARLY notice of events of POSSIBLE safety or public interest significance. The information is as initially received without verification or evaluation, and is basically all that is known by the Region I staff on this date.

Facility: GPU Nuclear Corporation	Licensee Emergency Classification:
Oyster Creek Nuclear Generating Station	_____ Notification of Unusual Event
Docket No. 50-219	_____ Alert
Forked River, New Jersey	_____ Site Area Emergency
	_____ General Emergency
	<u> X </u> Not Applicable

Subject: BOMB THREAT

At 1:08 a.m., October 1, 1982, an outside line phone call (anonymous; seemingly male, angry, vulgar, and inebriated) expressed discontent with increasing electric rates and stated "the place will go tonight." The licensee notified the Local Law Enforcement Agency and began a search of the protected area perimeter and all vital areas. Then, about 1:58 a.m., a call was received from inside the plant (from a seemingly sober person) stating that "you have a bomb up your a--!". After the search found nothing unusual, the licensee secured from the event at 2:45 a.m.

About 1:38 a.m., the licensee notified the NRC Headquarters Duty Officer, who notified Region I about 1:40 a.m. Neither the licensee nor the NRC plan a press release, but will respond to inquiries. Media coverage has occurred. The IAT has been notified. The licensee notified the FBI and the New Jersey State Police.

This Preliminary Notification is issued for information.
