Subject: Request for export license for byproduct material

Dear Ms. Hemby:

Enclosed please find our request for a license to be issued for the export of tritium in bulk gaseous form to England. The quantity requested is 500,000 curies, the requested expiration date is 4 years from date of issue.

Other information concerning this request is identical to our application for license XBO01065, including: applicant, ultimate consignee, end-use and supplier. This application (combined with the remaining balance available for shipment from license XBO01065) will provide for NRC export authority for all material currently contracted for by Brandhurst Company Ltd. with ORNL.

If you need any further information please let us know. Thank you for your prompt assistance in this matter.

Sincerely,
EDLOW INTERNATIONAL COMPANY
