RE: Changes in the Operator Requalification Program for The Ohio State University Research Reactor, Docket No. 50-150

The OSU Research Reactor Staff recently completed revisions to many of their Administrative Procedures including AP-09 "RO/SRO Requalifications". These changes were made to keep the procedure in line with the requirements of 10CFR55.59. The recommended changes were reviewed and approved by the University's Reactor Operations Committee on November 8, 1990.

This procedure is enclosed for your review as suggested by Geoffrey C. Wright, USNRC Region III Operations Branch Chief, in his letter to The Ohio State University dated March 3, 1989 and as required by 50.54.

Please contact Mr. Richard D. Myser with any questions on this matter.

Sincerely,

Robert F. Redmond
Director
