As requested today, I am pleased to supply the following information regarding the intermediate consignees requested in application amendments dated August 5, 1982.

- a. AGIP Nucleari (AGN) - This firm owns most of Fabbricazioni Nucleari S.p.A. (F.N.). AGN purchases from GE some non-nuclear hardware required to manufacture nuclear fuel for boiling water reactors at the F.N. facility.
- b. FIAT - T.T.G. S.p.A. (FIAT) - Under contract to F.N., FIAT will import certain non-nuclear items from GE for preparation at its Torino plant and subsequent transfer to F.N. for fuel fabrication as above.
