

NOV 20 1990

TO: TITLE I INTERESTED PARTIES

SUBJECT: ALTERNATE CONCENTRATION LIMIT (ACL) WORKSHOP

The Division of Low-Level Waste Management and Decommissioning of the Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission is sponsoring a workshop to discuss approaches for establishing alternate concentration limits (ACLs) at inactive uranium mill tailings sites regulated under Title I of the Uranium Mill Tailings Radiation Control Act of 1978. This workshop is designed to provide information and solicit input on the methodology to be used to review ACL applications at Title I sites. Given the interest in ACL applications, we plan to extend an invitation to Title II licensees and Agreement States having uranium recovery regulatory responsibility to attend and participate in the workshop.

The workshop will be held on Wednesday, December 12, 1990, from 9:00 a.m. to 5:00 p.m. in the vicinity of the NRC facility in Rockville, Maryland. We will notify those planning to attend of the exact location of the workshop and available accommodations as soon as possible.

A tentative agenda for the workshop is enclosed to assist you in your planning process. To help us prepare, please inform us by December 1, 1990, if you plan to participate and how many from your organization will attend. To notify us of your participation, or if you have any questions, please call Ms. Sandra Wastler at (301) 492-0582 or Mr. Myron Fliegel at (301) 492-0555.

Sincerely,

Paul H. Lohaus, Chief
