License No. 34-12100-03
Docket No. 030-08523

Dear Ms. Wellman:

This refers to the special safety inspection conducted by Toye L. Simmons of this office on February 23, 1994, of activities authorized by NRC Byproduct Material License No. 34-12100-03. The inspection was prompted by your notification to NRC regarding a radiopharmaceutical misadministration. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

No violations of NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room.

Sincerely,

Original Signed by Roy J. Caniano

Roy J. Caniano, Chief
Nuclear Materials Safety Branch
