Dear Mr. Waterman:

SUBJECT: U. S. NRC INSPECTION REPORT NO. 70-36/90-203

The Nuclear Regulatory Commission (NRC) conducted a routine unannounced inspection of your hematite facility's material control and accounting safeguards program on October 22-25, 1990. The scope and results of the inspection are summarized in the Inspection Report Summary (Enclosure 1). Areas examined during the inspection are described in the Inspection Report Details (Enclosure 2).

The inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations of activities in process. At the conclusion of the inspection, the findings were discussed with members of your staff at Hematite, Missouri. Within the scope of this inspection, no violations or deviations were identified.

In accordance with Section 2.790(d), documentation of the findings of your control and accounting procedures for safeguarding special nuclear material are exempt from public disclosure; therefore, the enclosed Inspection Report Details (Enclosure 2) will not be placed in the Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,

Original Signed by  
Theodore S. Sherr  
Theodore S. Sherr, Chief  
Domestic Safeguards Branch  
Division of Safeguards and  
Transportation, NMSS
