

UNITED STATES
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555-0001

March 4, 1994

The Honorable Joseph I. Lieberman, Chairman
Subcommittee on Clean Air and Nuclear Regulation
Committee on Environment and Public Works
United States Senate
Washington, DC 20510

Dear Mr. Chairman:

The U.S. Nuclear Regulatory Commission is amending its regulations in 10 CFR 50.54(bb) to clarify the timing of notification of spent fuel management and funding plans by the Commission's licensees of those nuclear power reactors that have been shut down prematurely. The final rule requires that a licensee submit such notification either within 2 years after permanently ceasing operation of its licensed power reactor or no later than 5 years before the reactor operating license expires, whichever event occurs first.

Sincerely,

A handwritten signature in dark ink, appearing to read "Dennis K. Rathbun".
