Subject: Response to Generic Letter 89-10

Dear Sir:

The NRC in Reference (b) requested licensees to have an MOV Program and schedule available for review by June 28, 1990. Yankee responded in Reference (e) to have this date extended to November 30, 1990. The NRC accepted this response in Reference (f).

Yankee intends to meet the scheduling requirements as outlined in Item i of Reference (b).

Also, Yankee intends to meet the scheduling requirements as outlined in Item j of Reference (b). Surveillance of MOVs after program implementation will be scheduled for every three refueling outages, unless Yankee can justify a longer interval for any particular MOVs.
