UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

April 6, 1994

CHAIRMAN

The Honorable Max Baucus, Chairman
Committee on Environment and Public Works
United States Senate
Washington, D.C. 20510-6175

Dear Mr. Chairman:

Thank you for your letter of March 16, 1994, in which you urge the Nuclear Regulatory Commission to adopt expeditiously a final rule to upgrade the design basis threat at nuclear power plants to include protection against the malevolent use of vehicles. The NRC staff is preparing a paper addressing final rulemaking, taking into account your comments, comments received from the general public, and those submitted by the NRC's Advisory Committee on Reactor Safeguards. I expect that paper to be submitted for Commission consideration by early May 1994.

Sincerely,

Ivan Selin
