

November 30, 1990

DOCKET NO: 70-1100  
LICENSEE: Combustion Engineering, Inc. (CE)  
Windsor, Connecticut  
SUBJECT: CATEGORICAL EXCLUSION FOR AMENDMENT REQUEST  
DATED NOVEMBER 13, 1990

By letter dated November 13, 1990 (containing pages dated June 30, 1989, and November 13, 1990), CE submitted a revised Radiological Contingency Plan. The NRC staff determined that some of the changes do decrease the effectiveness of the Plan. However, these changes are of a procedural nature and are acceptable under the 10 CFR 70.22 requirements regarding emergency preparedness for major fuel cycle facilities. The changes do not adversely effect the public health and safety or the environment. Therefore, in accordance with 10 CFR 51.22(c)(11), neither an Environmental Assessment nor an Environmental Impact Statement is warranted for this proposed action.

FOR THE NUCLEAR REGULATORY COMMISSION
