Mr. Thomas T. Martin
Regional Administrator
Nuclear Regulatory Commission
475 Allendale Road
King of Prussia, PA 19406

Dear Mr. Martin:

Please advise us as to the acceptability of clinical training provided to a US citizen by an off-shore university and medical school's Radioisotope Laboratory. The university, medical school and laboratory director are internationally known for research and publications in nuclear medicine.

Sincerely,

Clyde E. Pearce

Mr. Charles Rose
Institute for Nuclear Medical Education
5171 Eldorado Springs Drive
Boulder, CO 80303

Dear Mr. Rose:

I spoke with you, while working in Rochester, N.Y. about my interest in taking your Basics of Radioisotope Handling Courses.

I am an American citizen, Board Certified in Cardiovascular Diseases, temporarily living in Argentina. I have arranged with Professor Doctor Emilio Kuschnir of the Radioisotope Laboratory of the National University Medical School of Cordoba, Argentina to perform the Clinical Preceptorship required for License in Nuclear Cardiology by the U.S. Nuclear Regulatory Commission.

Doctor Emilio Kuschnir is an internationally known authority in nuclear medicine.

I would not start this preceptorship unless previously approved by the Nuclear Regulatory Commission.

I would appreciate your assistance in contacting the NRC or your sending me the address of the NRC.

Sincerely yours,

Ivon N. Campo, M.D.
