

APR 19 1994

Mr. Charles A. Judd
Executive Vice President
Envirocare of Utah, Inc.
American Towers Commercial
46 W. Broadway, Suite 240
Salt Lake City, Utah 84101

Dear Mr. Judd:

On March 8, 1994, Envirocare of Utah, Inc., (Envirocare) submitted, for U.S. Nuclear Regulatory Commission review and approval, the following document in response to a condition in byproduct material License No. SMC-1559:

"Procedures For Certification of 11e.(2) Material," revised March, 1994, in accordance with License Condition 9.6 (c) and the NRC's letter dated February 24, 1994.

The NRC staff has completed its review of this document and approves the licensee's certification procedures. The basis for NRC's approval is documented in the enclosed safety evaluation. Envirocare, therefore, has fulfilled the requirements of License Condition 9.6(c).

Envirocare, in addition, should include the certification procedures in the Standard Operating Procedures for the NRC licensed facility. The certifications and verifications should also be maintained in accordance with 10 CFR Part 61, Subpart G, Section 61.80 (e).

Should you have any questions, please contact the NRC Project Manager, Sandra L. Wastler at (301) 504-2582.

Sincerely,

Original Signed by Daniel M. Gillen
