Missouri Precision Castings

January 19, 1994

United States Nuclear Regulatory Commission
Region 333
799 Roosevelt Rd.
Glen Ellyn, IL 60137

Dear Sirs:

The following information is being provided to comply with 10 CFR Sections 30.34C (6), 40.46 and 70.36 to provide notification regarding the proposed sale of Missouri Precision Castings (NRC Materials License No. 24-15152-01).

NCR Information Notice No. 89-25 details specifications to be addressed. They are as follows:

- a. No change of the name of the organization is anticipated.
- b. No license related personnel changes are planned.
- c. Seller will remain in business with license.
- d. The transaction will consist of transfer of assets through assumption of existing debt.
- e. No changes are planned in organization location, facilities, equipment procedures or personnel.
- f. No changes are planned in the use, storage or possession of licensed materials.
- g. All surveillance items and records will be current at the time of transfer.
- h. No contamination is present or is a factor.
- i. Decontamination plans are not necessary.
- j. Both transferer and transferee agree to the change of ownership.
- k. The transferee will abide by all constraints, conditions, requirements, representations and commitments stated in the existing license.

Please contact us if any additional information is needed.
