Reference: Docket No. 50-285

Gentlemen:

SUBJECT: Correction of Error in NUREG/CR-2907

Volume 11 of NUREG/CR-2907, "Radioactive Materials Released from Nuclear Power Plants Annual Report 1990," was published in October 1993. This report includes individual plant effluent information reported to the NRC and compiled by Brookhaven National Laboratories. Omaha Public Power District (OPPD) has determined that the year 1990 value listed for Fort Calhoun Station Unit No. 1 in Table 6 (Liquid Effluents Comparison by Year, page 28) of NUREG/CR-2907 is erroneous.

The value currently listed is 8.05E+01 Curies; however, the correct value as reported is 8.05E-01 Curies. Correction of this value will also change the Table 8 Total for 1990 from 1.58E+02 Curies to 7.84E+01 Curies.

OPPD requests that NUREG/CR-2907 be corrected to reflect the information noted above. Please contact me if you have any questions.

Sincerely,

W. G. Gates
Vice President

WGG/tcm
