DOCKET 50-155 - LICENSE DPR-6 - BIG ROCK POINT PLANT - INTEGRATED PLAN ISSUE  
BN-130, EVALUATION OF THE INSTRUMENT AIR SYSTEM PER GENERIC LETTER 88-14

This letter provides notification that Integrated Plan Issue BN-130, Evaluation of the Instrument Air System per Generic Letter 88-14, scheduled for completion by December 31, 1990 will not be met. A revised schedule for this issue will be reported in the next Integrated Plan Semi-Annual Update.

The majority of research of information describing the design and operation of the safety-related equipment interfacing with the air system has been completed, however, the document file is not finished. Engineering analysis portions of the modifications needed to further monitor/test air quality is complete but installation was not accomplished due to an unexpected additional workload during the 1990 Refueling Outage and the forced outage just prior to the Refueling.
