Dear Mr. Linder:

SUBJECT: NUREG-0737, ACTION ITEM II.K.3.27 "COMMON REFERENCE LEVEL"

La Crosse Boiling Water Reactor

By letter dated May 14, 1982, you proposed to perform the actions requested by our March 31, 1982 letter in conjunction with your control room design review (NUREG-0737 Action Item I.D.1). You maintain that integration of the subject action item and action item I.D.1 will eliminate any potential operator confusion that may result from changing water level instrumentation one time because of the subject action item and perhaps then again because of the control room design review.

We consider your proposed approach to be reasonable. Therefore, since you have committed to perform the actions requested by our March 31, 1982 letter, and since we have previously approved your existing configuration as an acceptable interim measure, we consider the subject item complete for your facility.

Sincerely,

Original signed by
Dennis M. Crutchfield
