**Subject:** RE: Cyclotron Production & Distribution extension

The NRC issued internal licensing guidance in August 18, 2017 to extend license expiration dates from 10 years to 15 years when renewing a license or when issuing a new license. This guidance also allows for a one-time extension of 5 additional years to a license expiration date through the license amendment process. However, this request needs to come from the licensee in a signed and dated letter, in licensee's letterhead. If interested, you can send the letter requesting that the expiration date for your NRC licenses be extended for an additional 5 years. This request can be sent to our licensing assistant [carol.hill@nrc.gov](mailto:carol.hill@nrc.gov) and should be sent as soon as possible.

**Subject:** [External\_Sender] Cyclotron Production & Distribution extension

Hi Roberto,

Our cyclotron production and distribution licenses are expiring in June of this year, an inspected indicated that we could get a 5 year extension. We wanted to request a 5 year extension, if this is still possible. Do we just need to submit a letter or is there a form we need to fill out?

The licenses are:  
 53-16533-04MD Cyclotron-Distribution  
 53-29377-03 Cyclotron-Production

Thanks for your help

RE: License extension  
The Queen's Medical Center  
NRC License No. **53-29377-03** and **53-16533-04MD**

To whom it may concern:

Please extend both our production (53-29377-03) and distribution (53-16533-04MD) licenses for an additional 5 years. The current expiration date, for both licenses, is June 30, 2020.

Thank you for your assistance. If you have any questions or require additional information, please contact myself at 808-691-4884 or Darlena Chadwick at 808-691-4742.

Sincerely,

*Dale Schippers*
