Hope Creek Generating Station

December 3, 1990

U. S. Nuclear Regulatory Commission  
Document Control Desk  
Washington, DC 20555

Dear Sir:

HOPE CREEK GENERATING STATION  
DOCKET NO. 50-354  
UNIT NO. 1  
SPECIAL REPORT 90-002

This Special Report is being submitted pursuant to the requirements of 10CFR73.71, due to a notification of the NRC Operations Center of a late fuel shipment.

On 11/2/90 at 0800, the NRC Operations Center was notified that a fuel shipment for the Hope Creek Generating Station had not arrived at the expected time. The truck delivering the fuel had not arrived as scheduled at 0700, and General Electric - Wilmington, N.C. was notified. It was determined that the driver had been delayed enroute by fog in the early morning hours, and had not informed GE - Wilmington in sufficient time to reschedule arrival at Hope Creek.

The fuel shipment arrived at 0755, and all fuel was accounted for.

Sincerely,

J.J. Hagan  
General Manager -  
Hope Creek Operations
