RE: Bldg. 25 Remediation Project - Decommissioning Plan

Dear Mr. Huffert:

In response to your letter dated September 02, 1992, you requested that Alcoa supply a decommissioning plan that contained the following information: 1) Health and Safety Plan, 2) A Remediation Plan and 3) a description of the final radiological survey.

We have attached for your review, the following documents prepared by NES and Damnes & Moore:

- 1) Remediation Plan for Building 25 Mezzanine - Alcoa Facility.
- 2) Bldg. 20 Radiological Characterization Plan for Chemetron Corporation.
- 3) Damnes & Moore Health and Safety Plan.

We look forward to receiving the NRC's approval of the above plans so that the remediation work in Bldg. 25 can precede in a timely manner.

Sincerely,

  
M. A. Gradert  
Senior Environmental Specialist
