MEMORANDUM FOR: J. R. Miller, Chief  
Technical Inspection Branch  
Division of Engineering and Technical  
Inspection  
Region III

FROM: W. T. Crow, Section Leader  
Uranium Process Licensing Section  
Uranium Fuel Licensing Branch

SUBJECT: LICENSE RENEWAL APPLICATION, COMBUSTION ENGINEERING,  
INC., (CE), HEMATITE, MISSOURI, DOCKET NO. 70-36

The license renewal application of the CE Hematite facility, Docket No. 70-36, has been received and our review has begun.

The review schedule has been prepared along the lines of the "Agreement on Interface and Division of Responsibility Between NMSS and IE," with the "Plan for Licensing Review and Inspection Related to Major Licensing Actions for Fuel Cycle Facilities," which is footnoted in the interface agreement.

Major milestones in our review schedule include the following:

- |   |       |
|---|-------|
| 1. Completion of initial safety reviews                   | 12/82 |
| 2. Site visit.  | 12/82 |
| 3. Completion of initial project manager review.          | 1/83  |
| 4. Applicant response to NRC comments.                    | 3/83  |
| 5. Completion of final safety reviews.                    | 4/83  |
| 6. Complete draft of Integrated Safety Evaluation Report. | 5/83  |
| 7. Prepare final SER.                                     | 5/83  |
| 8. Issue renewal.   | 6/83  |

We would like your comments and recommendations on the renewal application, notification of your scheduled inspection of the Hematite facility, and, in general, any action required by the Plan to meet the above scheduled milestones.
