General Comments

Although CE's proposed focused factory concept of management appears to be acceptable, one position should be delegated the overall responsibility for the safe operation of the Hematite facility. The individual assigned the position should at least meet the qualification requirements for Focused Factory Manager.

Specific Comments:

I.2-12	<ol style="list-style-type: none">1. Experience requirements for the Manager, Production Support, should be strengthened to the same level as the Focused Factory Manager.2. A Bachelor of Manufacturing (BM) degree has been listed as an educational requirement for several key positions. Please justify that BM is equivalent to the Bachelors of Science or Engineering degree.
