EN 90-108

OFFICE OF ENFORCEMENT
NOTIFICATION OF SIGNIFICANT ENFORCEMENT ACTION

Licensee: Baltimore Gas and Electric Company (EA 90-186)
(Calvert Cliffs)
Docket Nos. 50-317 and 50-318

Subject: PROPOSED IMPOSITION OF CIVIL PENALTY - \$12,500

This is to inform the Commission that a Notice of Violation and Proposed Imposition of Civil Penalty in the amount of \$12,500 will be issued on or about December 5, 1990 to Baltimore Gas and Electric Company. This action is based on a security shift supervisor suspending metal detector searches because of malfunctioning equipment and allowing employees to enter the protected area during a 15 minute period without either pat-down or hand held metal detector searches. At least four other security officers on duty at the time, who should have known the supervisor made an improper decision, did not take action to prevent, correct, or even report this obvious violation. While the penalty was escalated 25% for corrective action, this was offset by 100% mitigation for good past performance in the area of security.

It should be noted that the licensee has not been specifically informed of the enforcement action. The schedule of issuance and notification is:

Mailing of Notice December 5, 1990
Telephone Notification of Licensee December 5, 1990

The State of Maryland will be notified.

The licensee has thirty days from the date of the Notice in which to respond. Following NRC evaluation of the response, the civil penalty may be remitted, mitigated, or imposed by Order.
