Gentlemen:

Subject: Emergency Preparedness Appraisal 50-219/82-01

This refers to your letter dated August 12, 1982 in response to our letter dated June 11, 1982.

We have reviewed your responses to each of the items contained in Appendix A to our June 11, 1982 letter. As discussed during a telephone conversation between Mr. Michael Laggart of your staff and Ms. Marie Mojta of this office on September 21, 1982, we understand that items 9, 20, 22 and 24 have been completed in accordance with our Confirmatory Action Letter dated February 18, 1982. Items 25 and 26 (onsite and in-plant procedure revision findings) which were listed in your August 12, 1982 letter as completed, were not approved by the Plant Operations Review Committee until September 23, 1982. It is our understanding that these procedures had been developed and training completed before the June 1, 1982 CAL deadline.

With respect to items 11 and 14, the NRC has yet to take a position concerning your request to postpone the installation of the post accident equipment. As soon as we resolve the status of your request, we will inform you when this equipment must be installed.

Thank you for describing the actions which you have taken or plan to take to improve your emergency preparedness program. These actions will be examined during a future inspection.

Your cooperation with us is appreciated.

Sincerely,
