

Glowlite Corporation  
ATTN: Vijay K. Mehan  
Technical Director  
P. O. Box 698  
Pauls Valley, OK 73075

License: 35-13559-02E  
Expiration Date: May 31, 1981  
30-5963

Dear Mr. Mehan:

Thank you for your letters of September 16, 1982, and April 16, 1982, in response to our request for additional surveys dated March 29, 1982. The results of the survey performed on June 26, 1982, appear to meet the NRC Guidelines for Decontamination of Facilities and Equipment prior to release for unrestricted use (December 1975). We concur with your physicist's recommendation that as an additional precaution, the area should be sealed with a paint sealer. Plans to do this were confirmed during a telephone conversation between Mr. D. B. Spitzberg of this office and yourself on October 6, 1982.

We have no further questions concerning this matter, and are processing the retirement of license number 35-13559-02E. Thank you for your efforts.

Sincerely,

Glen D. Brown, Chief  
Technical Programs Branch
