

NOV 29 1990

Docket No. 50-461

Illinois Power Company  
ATTN: J. S. Perry  
Vice President  
Clinton Power Station  
Mail Code V-275  
P. O. Box 678  
Clinton, IL 61727

Gentlemen:

The changes included in your Quality Assurance Program description submittal dated May 25, 1990, have been reviewed in accordance with 10 CFR 50.54(a). In addition, we have reviewed the changes in Section 1.8, Conformance to NRC Regulatory Guide, and Table 3.2-1, Classification of Structures, Components and Systems, of your latest update of the Clinton Updated Safety Analysis Report (USAR). Questions resulting from this review were discussed between Mr. F. Maura of this office and Mr. W. Illiss and others of your staff during telephone conferences on November 21 and 26, 1990. As a result of these discussions, a response was transmitted to us on November 26, 1990, addressing the reduction of commitment concerns that we identified.

We understand that the deletion of Regulatory Guide 1.26, Rev. 3, from Table 8-1 of the USAR was an administrative error, and that you will correct the error on your next USAR submittal. Based on this understanding we conclude that these revisions continue to meet the requirements of 10 CFR Part 50, Appendix B, and are acceptable. If there are changes to QA commitments existing in docketed correspondence outside of the Quality Assurance Program Description, you are obligated to notify this office.

We appreciate your responsiveness in providing information required by 10 CFR 50.54(a)(3). Please contact Mr. Monte Phillips of my staff at (708) 790-5530 with any questions you may have regarding this matter.

Sincerely,

ORIGINAL SIGNED BY THOMAS M. BURDICK

Thomas M. Burdick, Chief
