Docket No. 40-3453

Utah State Historical Society
ATTN: James Dykmann
300 Rio Grande
Salt Lake City, Utah 84101

Case No. 93-0324

Dear Mr. Dykmann:

Enclosed please find extra copies of files containing plans on system layouts, operations, and decommissioning procedures for the Atlas Mill. We believe that this information would be practical for any student of history conducting basic research on the Atlas Mill. Your request for an archival quality copy of all records from this office would be a task of great proportions. This material would take up a full five-drawer filing cabinet and contain countless redundant statements on finances, ground-water quality, license amendments, and incoming and outgoing correspondence.

I feel that the information enclosed is a comprehensive cross section of the activities conducted at Atlas site since operations started there in the 1950s. For more indepth research, our files at the public document room will always be available. Also, my staff has been in contact with personnel at Atlas, and they confirmed that they will be sending the Historical Society any extra documentation they have. As this office closes, we may have additional surplus records that could be sent to you.

If you have any questions in this matter, please contact Dana C. Ward of my staff at (303) 231-5810.

Sincerely,

A handwritten signature in black ink, appearing to read "Ramon E. Hall".
