Docket No. 50-443

Public Service Company of New Hampshire  
ATTN: Mr. Ted C. Feigenbaum  
President and Chief Executive Officer  
New Hampshire Yankee Division  
Post Office Box 300  
Seabrook, New Hampshire 03874

Gentlemen:

Subject: NRC Region I Inspection 50-443/90-23 (10/15/90 - 11/15/90)

This refers to the above subject safety inspection of the Seabrook Station, Seabrook, New Hampshire. The inspection results are described in the enclosed report and were discussed with Mr. B. Drawbridge and other members of your staff.

Overall, this inspection found that the plant was operated in a safe manner. The decision to extend the unplanned maintenance outage to replace the reactor coolant pump seal was assessed as conservative and as enhancing safe operation. However, control of overtime, conduct of informal root cause analysis, and control of minor modifications may be in need of additional management attention.

Thank you for your cooperation.

Sincerely,  
Original Signed By:  
Jon R. Johnson

Jon R. Johnson, Chief  
Projects Branch No. 3  
Division of Reactor Projects
