Docket No. 40-8681

Ms. Carol Oldershaw
8405 Greenwood Ave., #3
Takoma Park, Maryland 20912

Dear Ms. Oldershaw:

I am responding to your letter to Mr. Samuel Chilk of the Nuclear Regulatory Commission. You requested that your name be placed on the service list, as you were interested in receiving notices and timely information on the Umetco Corporation and its White Mesa Mill near Blanding, Utah.

We do not have a service list for correspondence on our licensees for members of the general public because the costs would be exorbitant. Special service lists are often developed for matters under litigation or subject to hearings; however, not for routine licensing actions. Matters of interest to the public, proposed actions, and notices of actions taken, if they meet prescribed criteria, are published in the Federal Register. Federal Register Notices provide information on how to obtain copies of documents specific to that Notice. In addition, all public correspondence relating to any of our licensees and applicants are available for review in our Public Document Room, which is located at 2120 L Street N.W., Washington, D.C. Arrangements can be made at that office for copies of any documents.

Sincerely,

Ramon E. Hall
Director
