Gentlemen:

This acknowledges the receipt of your letter dated November 5, 1990, by which you transmitted Revision 9 to the Comanche Peak Steam Electric Station Physical Security Plan. The Regional security staff has reviewed the information contained in Revision 9 and has determined that Revision 9 is consistent with the provisions of 10 CFR 50.54(p) and is, therefore, acceptable for inclusion in the plan.

The changes are primarily concerned with the addition of bidirectional turnstiles in the alternate access building. A telephonic conversation between Mr. Earnest of our office and Mr. Southam of your staff on November 20, 1990, disclosed that the bidirectional turnstiles will not allow unescorted access to the protected area. The changes to the plan do not reduce the effectiveness of the plan and are acceptable.

The enclosures to your letter contain Safeguards Information of a type specified in 10 CFR 73.21 and are being withheld from public disclosure.

Sincerely,

Original Signed By

Samuel J. Collins, Director
Division of Reactor Projects
