

October 19, 1982

Docket: 50-267/82-01

Public Service Company of Colorado  
ATTN: O. R. Lee, Vice President  
Electric Production  
Post Office Box 840  
Denver, Colorado 80201

Gentlemen:

SUBJECT: EMERGENCY PREPAREDNESS APPRAISAL

This is to acknowledge receipt of the letter dated August 19, 1982, from Mr. Don Warembourg enclosing your response to the individual Appendix A items. We need additional information to fully evaluate your response to two items.

In your response to Appendix A item 72 (267/8201-72), you briefly described plans to provide a filtered air supply for breathing air compressors. Have these changes been completed, and if not, what is the current status and when do you anticipate completion?

In your response to Appendix A item 39 (267/8201-39), you referred to action to correct a problem with noise levels from the continuous air monitor in the technical support center (TSC). What action did you take and when was it completed?

The status of all Appendix A items will be evaluated during the emergency preparedness appraisal followup to be scheduled later this year.

Sincerely,

*LSI*

G. L. Madsen, Chief  
Reactor Project Branch 1
