August 12, 1993

U.S. Nuclear Regulatory Commission  
c/o James Taylor, Executive Director of Operations  
Washington, DC 20555-0001

Dear Mr. Taylor:

Please be advised that Fairfield University is filing an exemption request for annual fees regarding certificate number SNM-949. We wish to change the category to possession only for this radioactive material. We are not asking for any other changes or exemptions for our current license 06-09667-03, which has been billed as a separate invoice.

We will have no problem in complying with the cessation of license activities entirely by September 30, 1993 regarding the single radioactive source covered by certificate number SNM-949. This compliance is assured in that this source has not been used for any activity for some time. In fact, it is scheduled for removal in the near future.

Thank you for the Commission's consideration of our exemption request. If additional information is required, please contact us.

Sincerely,

*Raymond P. Poincelot*
