Mr. Brian K. Grimes, Director
Division of Reactor Inspection
and Safeguards
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Grimes:

Reference: Brian K. Grimes letter to R. H. Stone dated
November 2, 1990, Docket No. 99900519/90-01

The referenced letter transmitted the report of your inspection at our Gaithersburg, Maryland, office on April 23-27, 1990. The report contains a notice of nonconformance (Appendix A) and requires a response to the nonconformances within 30 days from the date of your letter. It further indicates that you will consider extending the response time if we can show good cause for you to do so.

This is to confirm a telecon between Mr. Joseph Petrosino of the NRC Vendor Inspection Branch and Dinesh C. Kansal of Bechtel on November 29, 1990, regarding an extension request for responding to your Inspection Report. During the telecon Mr. Petrosino concurred that our request to provide a response by January 31, 1991, was acceptable. ✓

Your cooperation in this matter is sincerely appreciated.

Sincerely yours,

Robert H. Stone

R. H. Stone
