Re: Proposed Rule: Section 34.13(e)

Gentlemen:

I totally disagree with changing the frequency of our field inspections from quarterly to annually. Field inspections may be our most costly expense in managing our program but they are worth every penny.

Please refer to NRC Information Notice 91-49, August 15, 1991, bottom of Page 2. This notice urges us to make a minimum of four (4) inspections per year and it makes more sense than central certification and one (1) inspection.

Respectfully,

NORTH AMERICAN INSPECTION, INC.
