Re: Proposed Rule - Radiation Protection Requirements;  
Amended Definitions and Criteria  
Request for Comments (59 FR 5132, Feb. 3, 1994)

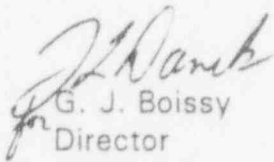

Dear Mr. Chilk:

On February 3, 1994, the Nuclear Regulatory Commission proposed to amend its regulations concerning radiation protection requirements. These comments are submitted on behalf of Florida Power and Light Company (FPL), a licensed operator of two nuclear power plant units in Dade County, Florida and two units in St. Lucie County, Florida.

The Nuclear Energy Institute (NEI) is offering comments on the proposed revisions. FPL endorses the NEI comments and recommendations.

FPL appreciates the opportunity to submit these comments.

Very truly yours,

  
for G. J. Boissy  
Director  
Nuclear Services
