Commonwealth Edison Company  
ATTN: Mr. Cordell Reed  
Senior Vice President  
Opus West III  
1400 Opus Place  
Downers Grove, IL 60515

Gentlemen:

This confirms our plans as discussed between Mr. W. Morgan of your staff and Mr. D. Jones of this office to have a meeting with you and members of your staff at the Mazon Emergency Operations Facility on Thursday, December 20, 1990 at 2:00 p.m. (CST). The purpose of the meeting is to present the Initial SALP 9 Report for LaSalle.

We encourage you to have appropriate corporate and plant management representation at the meeting to ensure a mutual understanding of the issues and findings being presented by the NRC.

While this meeting is considered a presentation and discussion forum between Commonwealth Edison Company and the NRC, the meeting will be opened to any other interested parties as observers. Those persons outside the licensee and NRC staffs should inform the Regional Office of their intent to participate.

We hope this meeting will benefit your organization and provide you with a meaningful characterization of the overall safety performance for the LaSalle plant.

Sincerely,

Hubert J. Miller, Director  
Division of Reactor Projects
