Maine Nuclear Referendum Committee P. O. Box 2627, Augusta, Me. 04330 207/622-4395  
Docket No. 50-309

Oct. 21, 1982

Mr. Robert A. Clark, Chief  
Operating Reactors Branch No. 3  
Division of Licensing  
United States Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Clark:

The Maine Yankee nuclear reactor at Wiscasset, Maine, is presently shut down for refueling and for what has been termed in the press a more intensive inspection since it has completed ten years of operation.

We would appreciate receiving an answer to the following questions at the earliest opportunity:

- (1) How many NRC personnel have been especially assigned to the Maine Yankee reactor during the shutdown?
- (2) What is the nature of the work they will be doing at the plant?
- (3) For what time period have the additional NRC personnel been assigned to work at Maine Yankee?

Thank you for your cooperation.

Sincerely yours,

*Judy Barrows*
