

NOV 30 1990

California Department of Health Services  
Radiological Health  
1232 Q Street  
Sacramento, CA 95814

Attention: Edward Bailey, Chief  
Radiologic Health Branch

Gentlemen:

During July 16-18, 1990, Oak Ridge Associated Universities (ORAU), an NRC contractor, conducted a confirmatory radiological survey of the University of California-Berkeley Research Reactor. I am enclosing a copy of ORAU's Final Report, ORAU 90/K-53 (NRC Report No. 50-224/90-01), which documents the survey and findings. This report has been sent to the licensee. I appreciate the cooperation that you and your staff have given this office during the decommissioning phase of this facility. If you have any questions with this report or its conclusions, please do not hesitate to contact me at 415-943-3748.

Sincerely,

Gregory P. Yuhas, Chief  
Reactor Radiological Protection  
Branch
