NUCLEAR PRODUCTION DEPARTMENT

U. S. Nuclear Regulatory Commission
Office of Nuclear Reactor Regulation
Washington, D. C. 20555

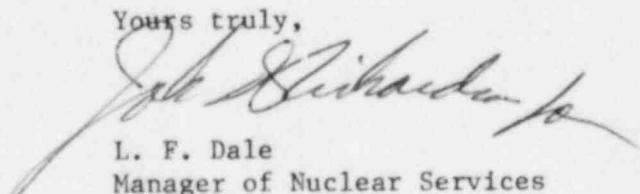

Attention: Mr. Harold R. Denton, Director

Dear Mr. Denton:

SUBJECT: Grand Gulf Nuclear Station
Unit 1
Docket No. 50-416
License No. NPF-13
File 0260/L-350.0/0092
Status on License Condition-
Automatic Depressurization
System Logic Modifications
Reference: AECM-82/358
AECM-82/492

License Condition 2.C.(44)(i)(a) of the Grand Gulf Nuclear Station Operating License (NPF-13) calls for a Mississippi Power & Light Company (MP&L) submittal on Automatic Depressurization System Logic Modifications by November 1, 1982. This submittal is to endorse the BWR Owners' Group alternative design modifications or otherwise satisfactorily resolve the issue. The MP&L November 1, 1982, submittal date was based upon an October 1, 1982, submittal by the BWR Owners' Group; however, the BWR Owner's Group submittal date has been revised to October 29, 1982. In the above referenced letter, it was erroneously requested, due to the revised schedule of the BWR Owners' Group, that MP&L's submittal date be moved to December 1, 1982. As discussed with and agreed to by the GGNS Project Manager, Mr. Dean Houston, this date should actually have been December 15, 1982. It is therefore requested that License Condition 2.C.(44)(i)(a) be revised to require the MP&L submittal by December 15, 1982.

Yours truly,

L. F. Dale
Manager of Nuclear Services
