

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

DEC 11 1990

MEMORANDUM FOR: John H. Austin, Chief
Regulatory Branch
Division of Low-Level Waste Management
and Decommissioning

FROM: Charles J. Haughney, Chief
Fuel Cycle Safety Branch
Division of Industrial and
Medical Nuclear Safety, NMSS

SUBJECT: TRANSFER OF THE ROCKETDYNE DIVISION LICENSE,
DOCKET NO. 70-25

This memorandum confirms the transfer of project management responsibility for the Rocketdyne License from the Fuel Cycle Safety Branch, Division of Industrial and Medical Nuclear Safety, to the Regulatory Branch, Division of Low-Level Waste Management and Decommissioning.

There are two up-to-date filing systems which are being transferred. One file system is a chronology file dating back to 1982 (last renewal application) which contains copies of both incoming and outgoing correspondence. This file may contain some correspondence which was received or distributed by the NRC Regional Office.

The second filing system has been maintained by the Project Manager as a "working file." This second file includes the license which has been amended by inserting revised pages into the 1982 license renewal application. Section I of the license renewal application, as revised, has been incorporated into the license by revision of License Condition 9.

As of the date of this transfer, our records indicate the following outstanding licensing actions. The actions have been tracked in the NMSS Operating Plan and Regulatory Information Tracking System (see numbers below). Mary Rogers, NMSS/PMDA, has been notified that these casework nos. should be transferred.

- Ltr dtd 04/12/90 transmitting decommissioning plan, superseded by ltr dtd 9/24/90 transmitting revised decommissioning plan, Casework No. 07000025120S, PPSAS #3111A.
- Ltr dtd 05/21/90 transmitting financial assurance guarantee, Casework No. 07000025130S, PPSAS #3111A.
