General Electric Company
Wilmington Manufacturing Department
ATTN: Mr. J. A. Long
General Manager
P. O. Box 780
Wilmington, NC 28401

Gentlemen:

This refers to the QA program inspection conducted by Mr. W. M. McNeill of this office on August 24-27, 1982, of your facility at Wilmington, North Carolina, associated with the manufacture and fabrication of nuclear fuel assemblies and core hardware and to the discussion of our findings with Mr. C. W. Doyle and members of your staff at the conclusion of the inspection.

This inspection was made to confirm that, in the areas inspected, your QA program is being effectively implemented. The inspection effort is not designed to assure that unique quality requirements imposed by a customer are being achieved; nor to assure that a specific product, component, or service provided by you to your customers is of acceptable quality. As you know, the NRC requires each of its licensees to assume full responsibility for the quality of specific products, components, or services procured from others. You should, therefore, not conclude the NRC's inspection exempts you from inspection by an NRC licensee or his agents, nor from taking effective corrective action in response to their findings.

Areas examined and our findings are discussed in the enclosed report. Within these areas, the inspection consisted of an examination of procedures and representative records, interviews with personnel, and observations by the inspector.

During the inspection it was found that implementation of your QA program failed to meet certain NRC requirements. The specific findings and references to the pertinent requirements are identified in the enclosures to this letter.

Please provide us within 30 days from the date of this letter a written statement containing: (1) a description of steps that have been or will be taken to correct these items; (2) a description of steps that have been or will be taken to prevent recurrence; and (3) the date your corrective actions and preventive measures were or will be completed. Consideration may be given to extending your response time for good cause shown.
