Mr. James M. Taylor
Executive Director for Operations
United States Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Dear Mr. Taylor:

This letter will confirm my understanding that Cleveland State University is not required to pay the \$5,720 FY 93 annual materials fee (Invoice Number AM00380-93) at this time. Per telephone conversation with Ms. Alicia Beale at NRC, Cleveland State University will not forward any payment until the NRC rules on petitions for reinstatement of the educational institution exemption filed by other universities.

I would appreciate your written concurrence with my understanding about this matter. I also trust you will inform this Office when a determination on the exemption is made.

Sincerely,

Charles Urbancic
Interim Director
