Subject: NRC Export License XCOM⁴⁴⁶, Italy (Rome & Pavia); Request for
Amendment.

Dear Mr. Zimmerman:

General Atomic Company (GA) makes application, pursuant to 10 CFR 110,
for amendment to subject license to extend expiration date for three
years from date of issuance of amendment.

GA is engaged in the manufacture and sale of nuclear reactors, nuclear in-
strumentation systems, components therefor, and cooperative research in
the development and testing of the components and fuels for research reac-
tors. In the normal servicing of our research reactors we are required
to provide replacement equipment and materials. We have a continuing
need to supply miscellaneous specially designed or prepared parts and
components for the reactors in Rome and Pavia.

We look forward to your early action on this license amendment request.
